PROJECTS

CODEMATE

A collaborative coding platform where programmers work in independent coding environments while communicating in real time to share ideas and problem-solving approaches. Features an online code editor with secure multi-language execution using Judge0 API, along with automated evaluation and submission tracking built on the MERN stack.

DSA TRACKER

A full-stack MERN-based tracker for managing DSA and aptitude preparation with daily targets and progress tracking. It includes a revision feature to revisit completed problems and add items for revision. The dashboard provides a clear view of overall progress to ensure consistency and organization

AUTOMATED CI/CD PIPELINE WITH JENKINS AND DOCKER

Built a robust CI/CD pipeline using Jenkins and Docker to automate build, test, and deployment processes. Ensured environment consistency through containerization, significantly improving release speed, reliability, and scalability
